

Appl. No. 10/065,236
Amdt. dated December 20, 2004
Reply to Office action of September 20, 2004

LISTING OF THE CLAIMS

1-2. (cancelled)

5

3. (previously presented) A computer backplane comprising:

a PCI expansion slot disposed on the backplane;

a first AGP expansion slot disposed on the backplane, in
alignment with the PCI expansion slot to allow that a
CPU interface card is able to be connected
simultaneously into both of the PCI slot and the first
AGP slot; and

10

a second AGP expansion slot having an extension of
electricity of the first AGP slot for receiving an
external AGP interface card therein for electrical
connection.

15

4. (original) The computer backplane as described in claim 3,
wherein the AGP interface card comprises gold fingers for
electrically connecting the AGP interface card to the second
AGP expansion slot.
